REMARKS

Each rejection and objection is addressed under original subject and numeric heading set forth in the Office Action.

Claim Objections

2. Claim 22 is objected to because of informality.

Claim 22 is amended to correct the informality.

Claim rejections – 35 USC § 103

8. Claims 2-8, and 10-24 are rejected under 35 USC 103(a) as being unpatentable over Swarup et al (US 5506325) in view of Barsotti (US 4411951).

As stated by the Examiner, "Swarup et al fail to teach that the acrylic polymers have molecular weight of 15,000-100,000 (claims 7 and 23-24), polydispersity of 1.05 -10.0 (Claim 7) and Tg from -5°C to +100°C and are made of " (Current Office Action, Page 5, 3rd paragraph).

As to the coating composition in Barsotti (US 4411951), it requires an alkylated melamine formaldehyde crosslinking resin (Barsotti, Abstract; Col. 3, line 15; Example 1 and Example 2; and claims 1 and 2).

Claim 22 has been amended to incorporate the molecular weight and polydispersity limitations, and also the crosslinking agent limitation. Support for the molecular weight and polydispersity are on page 4, line 28 – 31 of the Specification as originally filed. Support for polyisocyanate crosslinking agent is on page 7, line 1 – line 26 in the Specification.

As currently amended, claim 22 is patentably different from Swarup et al. or Barsotti individually, or in combination. Allowance of the amended claim 22 is respectfully requested.

As to claims 2 - 6, they are now dependent upon the amended claim 22. Allowance of these claims are requested.

As to claim 7, it has been canceled.

As to claims 13-14, claim 13 is amended to be dependent upon claim 22 and claim 14 is canceled. Allowance of claim 13 is requested.

As to claims 15-16, they are now dependent upon the amended claim 22. Allowance of these claims are requested.

As to claims 17-21, they are now dependent upon the amended claim 22. Allowance of these claims are requested.

9. Claims 2-8, and 10-24 are rejected under 35 USC 103(a) as being unpatentable over Barsotti in view of. Swarup et al.

See the reasons above. The coating composition in amended claims is patentably distinct from the ones disclosed in Barsotti's and Swarup's, either individually or in combination of the two.
